

# Campus Payments

Campus Payments is an effective new way for schools and universities to take control over their e-commerce and over the counter payment needs.

Campus Payments is an integrated payment gateway supported by local banks to provide a secure and affordable payment solution for educational institutions around the world.

Campus Payments can have your school accepting online credit card transactions for most major credit cards including MasterCard, Visa, \*Amex and \*JCB in just a few days.

Campus Payments gives the customer the freedom to integrate the Campus Payments Online Payment Gateway into their own website or Vertical Payment Solutions can supply a turnkey customised solution to enable you to add your own products to our shopping carts.

For over the counter or face to face transactions, Vertical Payment Solutions offer a Campus Payments Point Of Sale terminal, which can also be utilised as a basic cash register.

Whichever method you chose, Campus Payments makes the task of accepting online credit card payments simple.

By offering a global solution that is compatible with banks around the world, Campus Payments does all the hard work for you.

**Campus Payments can:**

- Supply the payment gateway with the highest levels of security and encryption available in the market today
- Supply a Point Of Sale terminal
- Introduce you to local banks
- Provide transaction and settlement reports
- Offer a range of web products to enable you to begin selling your products online in days.
- Offer very competitive transaction rates

\* Available where local banks support
